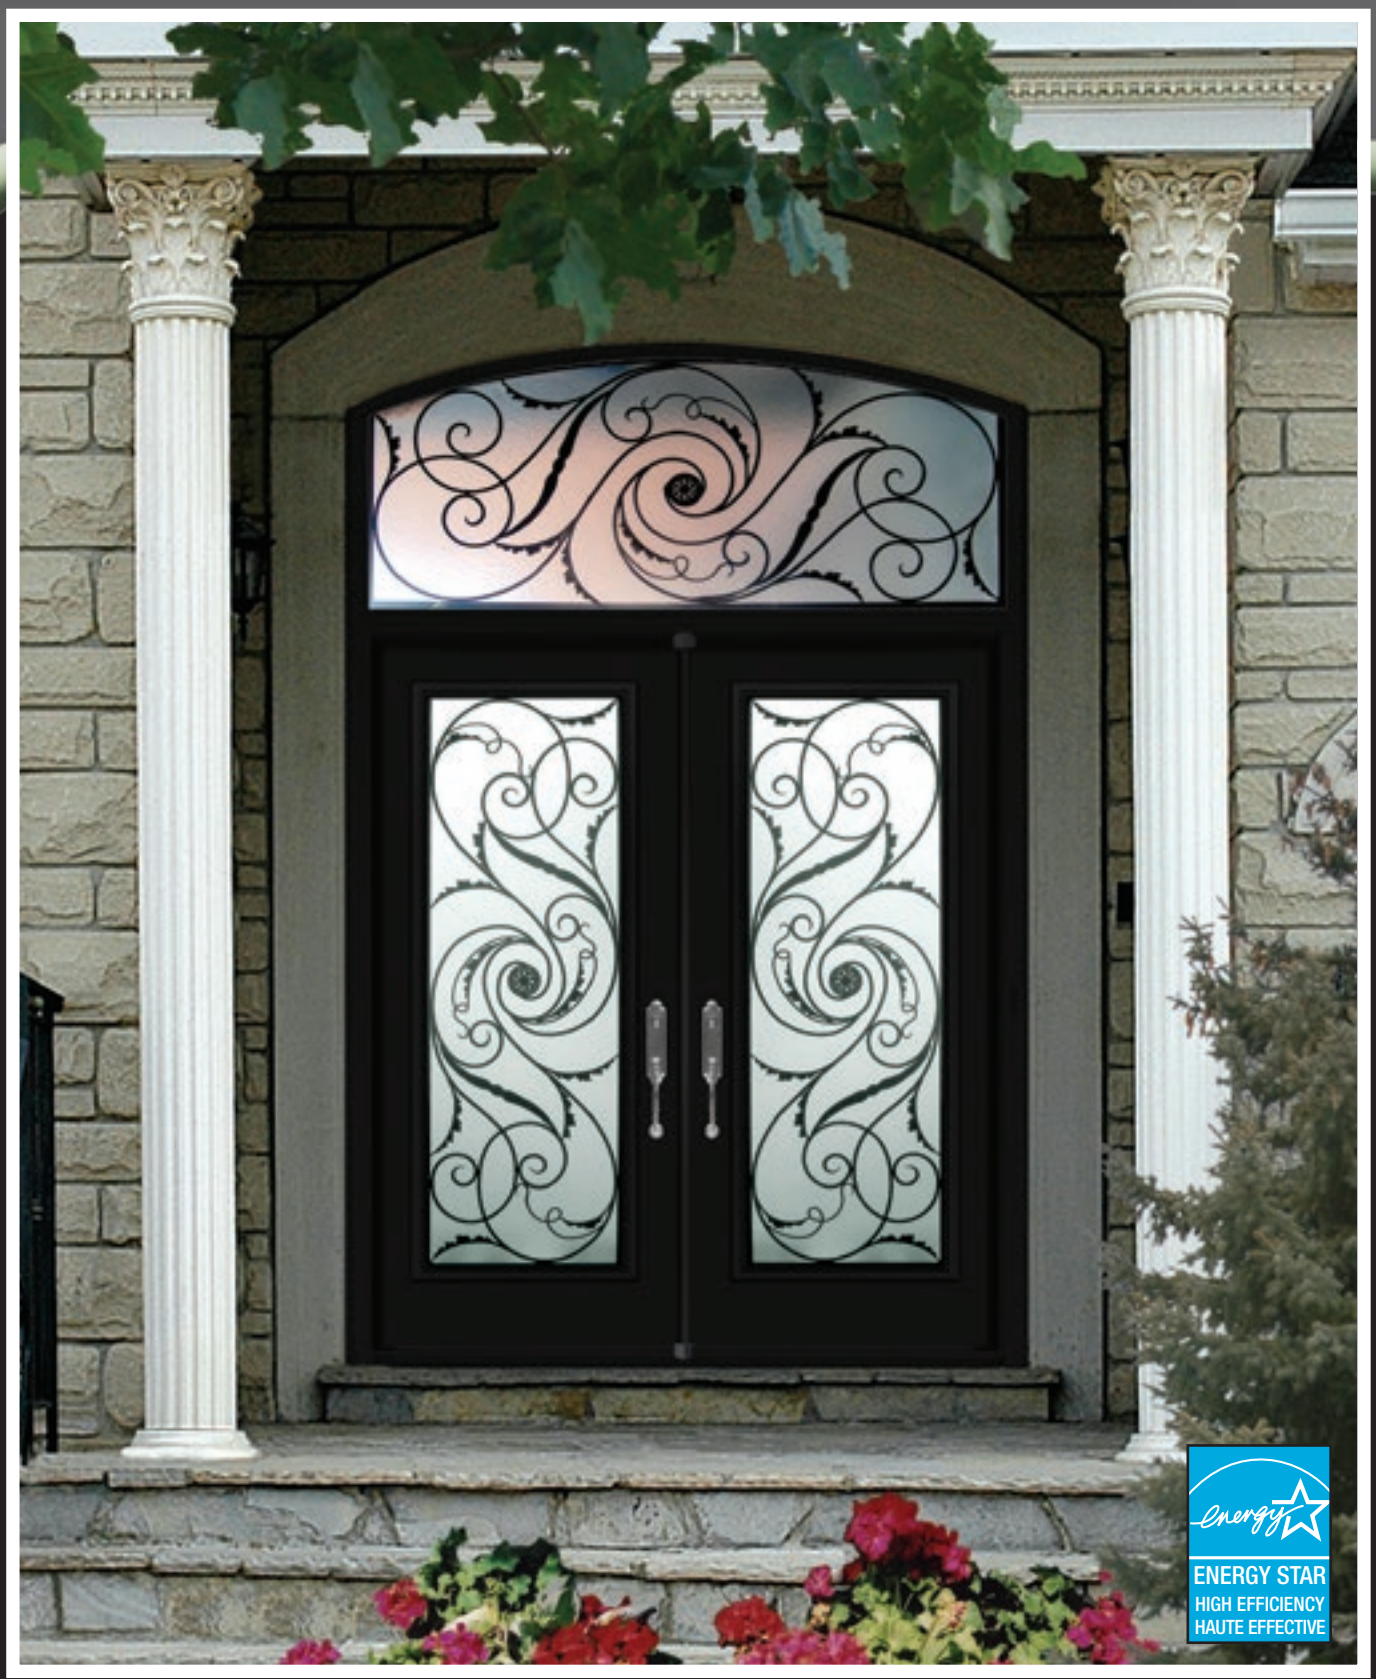
COBRA Doors 2000 Ltd.



We Manufacture the Highest Quality Entry Door Systems With Precision and Punctuality

Introduction

Our mission is to continuously manufacture and offer the best quality entrance door systems in Canada. Our experts here at Cobra Doors 2000 Ltd. will be happy to help explain current market trends to ensure you are making the right decision when ordering with us. Our goal is to provide customers with in-depth understanding of our entrance doors along with a great experience. Our success results from current market know-how, hard work, and continuous commitment to the best interest of our customers. In today's market conditions, it is important to work with a professional you can trust and rely on.

Pre-Framed Steel Door

- **A** Flexible, magnetic weather stripping seals out wind and dust. Also, with compression weather stripping, it ensures an airtight system.
- **B** Hinge seal keeps wind driven rain and dust out.
- **C** Zink dichromate, heavy-duty steel hinges.
- **D** Thermally broken aluminum sill self drain, together with bottom sweep, eliminates dust and water seepage.
- **E** Treated pine frame is finger-jointed and kiln dried to prevent warping and decaying.
- **F** Galvanized, rigid steel facings resist cracking, splitting, rusting and warping while adding an extra degree of security.
- **G** Lock block reinforces and provides for a full range of locksets, deadbolts and decorative hardware.
- **H** Foamed-in-place polyurethane insulating core gives excellent "R" value while adding to structural stability of colour.
- **I** Flexible bottom sweep seals out wind, rain and snow.
- **J** Kiln-dried Eastern White Pine stiles and rails provide excellent thermal break while adding structural stability.

All slabs are pre-finished factory white

Optional Features

1. Custom Painting - 14 Colours
2. Custom Stain - 6 Colours
3. Vinyl Cladding
4. Composite Frame
5. Custom Sizing

ENERGY STAR
HIGH EFFICIENCY
HAUTE EFFECTIVE

We are an Energy Star Certified company. An Energy Star certified company corresponds to strict energy performance standards and uses less energy, is less expensive to operate, and causes fewer greenhouse gas emissions. The ENERGY STAR® symbol goes one step further and identifies specific models that meet or exceed premium levels of energy efficiency. This certification is widely respected by consumers and is an indicator of superior energy-efficiency that reduces cost and is environmentally-friendly. Our principal benefits after having obtained Energy Star Certification is the brand recognition for energy efficiency among consumers.

* COVER PAGE: MARTINA IRON, MT9926-120 (2264)

Multi-Point Locking System

As soon as the door pulled shut, the Automatic latchbolts instantly throw 20mm and are secured to prevent the being forced back. By turning the key or knob, it will engage the deadbolt and lock the top and bottom latch bolts to become a 3 deadbolts locking system.

- 3-point, one piece locking system for 6'8" and 8" doors
- Heavy duty mortise construction with reinforced lever return spring system
- Locking by US-cylinder with 90° turn of key or thumb-turn
- No lifting of handle to engage locking points
- Top and bottom Automatic latch bolts projection from 10 to 20mm:
  - provide security against forced entrance
  - help prevent air infiltration from gasket
  - protect the door panel from warping
- 1" (25mm) throw on deadbolt
- Non handed, latch easily reversible
- 8mm square spindle
- 92mm centres (spindle to cylinder)
- Handle to height variable (36" recommended)
- 16mm stainless steel faceplate with radius ends for easy installation and cleaner look
- Same hardware groove detail throughout our entire door lock program (jig, router base and bits available)
- Extension with additional lock point is available for doors taller than 8' (6-33479-04-0-8B)
- To be used with level handle set (US-cylinder above handle)

Executive Panel Series

Decorative panel, urethane insulation, many models available.

High defenition decorative panel make sure you get the original

NOTE
Aluminum frame must be used when paint is applied in order to respect the warranty.

When they were intruduced on the market 10 years ago, the EXECUTIVE PANEL series sent a **shockwave in the steel door industry** , and they have become more popular every year since.
These **“high defenition”** panels, inspired by the mouldings used on traditional wooden doors, can be used with decorative glass panels, in any number of combinations.
Our series sidelight joined to an EXECUTIVE DOOR can **add style to any house.**
